FOR IMMEDIATE RELEASE

Lollicup® USA, Inc. Half-Year Update
Lollicup USA Inc. is ready to end 2018 on a successful note

Chino, Calif., June 18, 2018 – Lollicup® USA Inc. has gone through positive changes over 2018. They have launched new products, new locations and have pushed for more eco-friendly efforts.

With the opening of their new warehouse in New Jersey, they are better able to serve the east coast quick and effectively. The new manufacturing plant in Rockwell, Texas will be ready by the end of 2018 creating more jobs and business opportunities for customers.

Lollicup® USA Inc. has launched 83 new products this year to keep up with trends and customers' needs and wants. An exciting product that started selling this year was their eco-friendly colossal straws which are commonly known as boba straws. Lollicup USA Inc. is one of the first companies to add a disposable eco-friendly boba straw.

Lollicup® USA Inc. is ramping up their eco-friendly efforts this year as a way to really show the need for corporate responsibility. This year alone Lollicup USA Inc. has set new initiatives for community outreach and continues to recycle paper and plastic.

Lollicup® USA Inc. plans to keep innovating and growing their business to be a top supplier. The company is projected to hit 180 Million in sales for the end of the year which is growth from last year.
